New Hotel at Oldtown!

JAMES STINSON

Announces to his friends and to the public, that he has fitted his large, commodious and centrally situated dwelling for a Public Hotel and has opened the same to the public with the determination that every attention shall be paid to the accommodation of the travelling community.

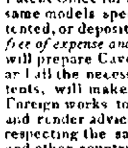

He gives full assurance that he will keep a TEMPERANCE HOUSE, and that nothing shall be wanting on his part to entitle him to the approbation of all who may favor him with their patronage. The House will be kept on a liberal scale and the most assiduous attention shall be given to make the house a desirable and comfortable home for travellers as well as more permanent boarders.

It is believed that a Hotel of this description is greatly needed in Oldtown and the public are invited to give it their support.

Oldtown Sept 4, 1848

HALLOWELL HOUSE,

HALLOWELL MAINE

THE subscriber respectfully announces to his friends and the public that he has leased this well known Hotel, and has made many important improvements and repairs. The house has been newly furnished throughout in a manner that will compare with any other establishment on the Kennebec. It is his determination to make it one of the best resorts for the travelling public that can be found in this section of the country.

Gentlemen with their families and members of the State Legislature will be furnished with superior accommodations. The proprietor hopes by personal politeness and attention to merit the support and confidence of the public. Connected with the House is a good Stable where careful and experienced Ostlers will always be in attendance.

PATENTS.

AMERICAN AND FOREIGN OFFICE,
And Agency of the U S Patent Office, Washington,
22 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U S, Patent Office for receiving and forwarding to the same models specimens or manufactures to be patented, or deposited therein which will be sent *free of expense and risk* and with despatch. He will prepare Caveats, Specifications Assignments and all the necessary Papers and Drawings for Patents, will make researches into American and Foreign works to test the validity of inventions and render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions and of consulting in respect to them, *matters, in general of paramount importance in order to obtain correct specifications and claims.* The experience of *sixteen year's* practice, an extensive collection of rare works decisions, &c on mechanical subjects the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

John S. Sayward—Editor

MONDAY, MAY 21, 1849.

☞ Gov Dana in his last annual message has given a kick at the great idea of our times, the Prohibition of Slavery in the territories by Congressional enactment. He thus speaks of the matter —

'That country therefore is in no more danger of being overspread with Slavery, than is the State of Maine, the North have no ground for fear, and the South have no hope of it. Both fear and hope might perhaps, have reasonably existed, in many minds before the character of the population became fixed, by recent free emigration, and by the absence of any effort for slave emigration, but since that, they are without foundation. If such then is the true position of the territory in question, a congressional prohibition of slavery therein would be no more productive of practical result, than a congressional prohibition of Mohammedanism, neither can they exist with, or without prohibition, and yet the North and the South are both excited to the extremes of bitterness the one insisting upon prohibition and the other resisting it, as just cause of disunion.

The Governor forgets that ideas are often of vastly greater consequence than any or all the apparent practical results growing out of them. The payment of a fraction of a penny duty on a pound of tea, in one aspect, was a matter of very trivial practical importance to any body, yet it in fact involved matters of the highest practical importance to all parties because it became an idea, including within it the whole matter of taxation and representation, and as such entirely overrode all money values and was cherished by men in their inmost minds—their heart of hearts, as worthy of being maintained at the highest sacrifice.

The public banquet of the clubs in Paris was a matter of very little practical consequence any way, yet the denial of this right by Louis Philippe elevated the right at once into an idea, which warmed with electric speed the hearts of the great circle of the men in frocks and led them to risk life itself in protecting their idea from violence.

History is marked by nothing more strongly than with the evidences of similar examples — Indeed all the great epochs of history have been brought about by the infusion of an idea, more or less distinct into the popular mind whether that mind be represented by the few or the many.

It is in the light of these teachings of history that the prohibition of slavery in the Territories should be mainly regarded. It is an idea in the popular mind as a security and assurance on the faith of a free and enlightened nation, that in this era of the world free soil shall not be overrun by involuntary human slavery.

Whatever for the time becomes the representative of one of these leading, absorbing ideas, is of importance. This is the case with the Wilmot Proviso and although it may be called a humbug by some, and of no more consequence than Mohammedanism in a Governor's message, it will be maintained and sustained and finally break in pieces all who determinedly oppose it.

☞ William C Hammatt, Esq entered upon his duties as Collector of this District on Saturday last.

He has made the following appointments —

John Gleason, Dep Col and Inspector, Bangor

Charles Pierce, Dep Col, Inspector, Weigher, Gauger and Measurer, Frankfort

Pro-Slavery Convention.

The Charleston papers of the 15th give an account of the proceedings of the South Carolina Convention which met at Columbia, last Monday. Mr Elmore, from the Committee reported a resolution requesting the Governor to convene the Legislature upon the passage of the Wilmot proviso, or a bill for the abolition of slavery in the District of Columbia.

The Hon F W Pickens reported a resolution reaffirming the doctrines of the Virginia resolutions passed last winter. Various propositions and resolutions were offered, and the Convention finally adjourned to Tuesday.

☞ Bark Walter went ashore on Key Cruz del Padre previous to 7th inst, and bilged, crew saved and arrived at Cardenas. The news reached Matanzas on the evening of the 7th, without further particulars. The vessel is supposed to be the Walter of this port, which cleared at New York 14th ult for Havana.

From Santa Fe.

The N Y Courier and Herald have dates from Santa Fe to the 30th of March. A dangerous combination had been formed against the whites by the Apache and Eutaw Indians.

Two of Fremont's party were killed by the Indians in March last. Mr Aubry, the well known trader, and three others are reported to have been killed by the Indians at El Paso.

A band of American robbers were committing depredations upon the settlers and travellers in the neighborhood of El Paso.

At Santa Fe complaints were made of the remissness of Congress, in not providing properly for the government of New Mexico.

Many persons were working at the Colorado gold mines. They were said to be very productive.

Fire in Portland.

We learn from the Portland Advertiser that the lower end of the brick block on the easterly side of Union street, was considerably injured by fire on Thursday night. The fire took in the third story, over stores Nos 29 31 and 33, which was occupied by Knowlton & Munn, carpenters —Wm Graves & Son, curriers and leather dealers occupied the first and second stories of the lower stores, and E D Gammon, painter, the lower floor of No 33.

The fire was confined to the third story and roof. One of the stores belongs to W W Thomas, Esq.

The steamship Globe has arrived at New Orleans from Galveston and Brazos. The Flag has a letter from Camargo, dated April 30th, which says that Mr. Audubon and his party left the day previous, for San Francisco. The company numbered 80 men—all well. Messrs Raymond & Humphries were to leave next week for the same destination.

☞ Thanks to Mr. Lowell, and Mr Cushing, of the steamer Governor, for papers received on Saturday, in advance of the mail.

It is understood that the Whigs of Missouri will aid the return of Col Benton to the Senate. About one half the Democrats of that State are said to be opposed to his re-election.

☞ Jonathan McKenney, of Gray, charged with poisoning his wife has been examined at Portland and committed to jail to take his trial before the S J Court to convene in Portland on the 2d Tuesday of November next.

The Albany Burgesses corps, have offered their services to General Taylor, as a guard of honor, at the State fair in September, which services he has accepted.

☞ Thanks to Capt Cates, of Bryant & Co's Express for papers received on Saturday in advance of the Mail.

☞ Thanks to Hodgman and Co's Express for a fine lot of papers by the Penobscot on Saturday.

☞ Our friends of the Augusta Age will please add another copy of their thrice weekly to our address.

☞ Mr Joseph Burton has been appointed Postmaster at Augusta, and not Benton as the Telegraph gave it.

☞ Mrs Farnham with her company of women has sailed from New York for California.

From California.

The following is an extract from a letter addressed to the editors of the Monitor by a merchant at San Francisco, dated March 9:

'It appears that throughout the immense extent of the placers you cannot find a foot of ground with out gold and there are spots where from each cradle (*batea*) full of earth the adventurer washes out a pound of precious ore.

The activity in this part is extraordinary and the circulation of money is prodigious. Every thing is high in price—more particularly manual labor and the transit of goods. The freight of a barge from here to the landing place of Santa Clara (three leagues from San Jose) is from $400 to $500. Here wretched backs of horses sell for $40, in San Jose $100. Food for man is $5 a day.

From San Francisco to San Jose, by land it is twenty leagues, thence to the quicksilver mines now working by Mr Forbes it is four leagues, and to the placers sixty leagues more.'

The preceding winter has been exceedingly severe, both in California and Oregon. A report was put into circulation that a gold placer had been discovered in the latter territory but a party of men who went to explore the banks of the Powder and Burnet rivers (tributaries of Lewis's Forks) the site of the supposed placer, but they returned without finding any thing like what was reported.

In the middle of January of this year the placers were covered with snow, notwithstanding this many persons continued digging. It was however understood that immediately the rivers began to rise, which event was shortly expected to take place all the works would be abandoned.

Several meetings had been held at San Francisco for the purpose of opposing the introduction of slavery into the country with a view to put to greater profit the labor of the Indians.

From Mexico

A shocking act of inhumanity had been perpetrated by the captain of the national brig Republicano. It appears that this vessel sailed a short time ago for San Blas with passengers for California. Two or three days after she was at sea, the captain, Don N Patino, found that a Frenchman had come on board surreptitiously without paying his passage. Patino wished to throw him into the sea, but was prevented by the passengers. He then drew near the shore, and in spite of every entreaty of the people about him, forced the unfortunate Frenchman to disembark on a sand bank entirely surrounded by the water and which was at high water partially overflowed. Here he was left with a few biscuits and six or eight pints of water. The humane passengers added a small quantity of plantains. On the arrival of the brig at Mazatlan, a complaint was lodged against Patino, and Gen Inclan, the Governor, ordered his arrest, at the same time despatching a small craft to ascertain if the ill fated Frenchmen was still alive on his desolate sand bank. The poor fellow was found at the last extremity of suffering from exposure and starvation, the bank not affording the slightest shelter from the burning sun, and for the most part being under the water. He was taken on board, and after some time with judicious care, he revived, when the vessel returned to Mazatlan.

Dreadful Shipwreck and loss of Life.

The vessels from Europe bound to the St Lawrence are as usual at this season of the year placed in extreme peril by the field ice which is encountered on the passage. The Quebec papers of the 12th relate the particulars of one melancholy disaster from contact with the ice which we fear is but the beginning of a melancholy chapter of similar reports. The brig Hannah of Marryport, Capt Shaw from Newry April 3 for Quebec, came in collision with the ice on the 29th of April at 4 o'clock in the morning, when the passengers (of which she had a large number) were in bed, and foundered in forty minutes after. The captain, 1st and 2d mates and a few others deserted the ship in the life boat immediately on finding that she was going down and were subsequently picked up by the Margaret Pollock since arrived at Quebec. The remainder of the passengers and crew succeeded in reaching the ice, where they remained all day, and were fallen in with at night by the bark Nicaragua, Capt Rice, bound to Quebec, and the survivors were rescued from their perilous position. One hundred and twenty nine passengers and six seamen were taken from the ice. *Fifty-five perished with the cold!* The survivors were in a most pitiable situation, parents with loss of children, children with loss of parents and many of them all but naked and the greatest part frost bitten.—Boston Journal.

A Letter from Gov. Boggs.

L W Boggs, at one time Governor of this State, has been for three or four years past, a resident of California. He is alcalde of Sonora, and has been engaged in extensive business as a merchant. The Independence Expositor, of last Saturday, publishes the substance of a letter which has been recently received from him, by his son Mr H C Boggs. He confirms, says that paper, most of the information received as to the richness and extent of the mines, says they extend over the country eight hundred miles in extent, and yielding immense quantities of the dust. He obtained, in a few months, upwards of $20 000 worth. Every body gets gold that wants it, and he says there are no poor men in California. He thinks about seven thousand men are engaged in digging gold, between six hundred and a thousand of these are from Oregon.—St Louis Rep 7th.

AUGUSTA, May 2d, 1849.

Messrs Walker and Barrett —

The following resolves were adopted by the Board of Education, April 27, 1849.

Resolved, That in the opinion of this Board, the Scholars' Leaf, published in Portland, by Messrs Walker & Barrett, is a judicious and useful periodical, admirably calculated to interest and instruct the young for whose special benefit it was established.

Resolved, That this Board recommend to teachers and the friends of education generally, to aid in giving to it as wide a circulation a possible among the scholars of our public schools.

P S. It was also voted that the clerk of the Board should transmit a copy of the above resolves to the publishers of the Scholars' Leaf which I accordingly do, and you have authority to insert them in your paper if you see fit.

Very respectfully yours,

H Tuxbury, Clerk

The formation of an Industrial Association Community on Long Island is proposed.

Terrific fire at St Louis.

ST LOUIS, May 18

A fire broke out this forenoon which laid nearly half the business portion of the city in ruins, every Insurance Office, five Banking houses, and twenty seven steamboats, which were lying together at the dock were destroyed, together with the Telegraphic office, which was subsequently removed to the other side of the river.

MR EDITOR—

I rejoice to notice, that the City Marshal is circulating his proclamation, warning citizens against violating certain ordinances of the city, and that he has given a promise that the police regulations in such cases shall be promptly and rigidly enforced, I rejoice to see also, that the city government shows some symptoms of remaining life in regard to the traffic in ardent spirits, particularly one the Sabbath, this is well, and I repeat it, I rejoice to see it, but there is another evil existing in our city, to which, I wish, through your paper, to call the attention of the city authorities, and that is, the profanation of the Sabbath in another way, I refer to the practice of boys and young men collecting on the Kenduskeag stream and its banks in boats and on rafts, and engaging in all manner of sports, screaming and yelling, cursing and swearing, at the top of their voices, very much to the disturbance of citizens going to, and returning from meeting. I would seriously enquire whether this evil practice cannot be prevented— if there is any remedy, in the ordinances of the city or in the laws of the State persons wishing to enjoy the blessings of the Sabbath quietly, ought to be protected from such outrages, on that day.

I sincerely wish that the attention of the police may be turned to the subject and that suitable measures be promptly adopted, that such scenes as were witnessed last Sabbath, and usually on the Sabbath during the warm weather, between the Milldam and Drew's point may be stopped.

Dr. Coolidge's Plot

The Boston Traveller says that the plot of Dr Coolidge was that the prisoner after his release, should go to Bath where he should call in Flint, under pretence of being sick, that he should pretend that his sickness was in the lower part of the body, and that while Flint was bending down, he should strike him in the back part of the neck with a piece of iron, in a spot particularly pointed out by Coolidge, where such a blow would probably be instantly fatal — He was then to place near him a bottle of poison, and a forged letter purporting to be a confession that he was the murderer of Matthews, instead of Coolidge.

If this plot was successful, Coolidge would as he supposed be liberated. But fortunately, papers detailing the whole plot, in the handwriting of Coolidge, were found by the Warden on the prisoner who was to act so prominent a part in the tragedy, and who was to be paid a thousand dollars for the accomplishment of the murder.

The Boston evening papers of Saturday and the Portland Umpire of Saturday evening contain the particulars of the great fire at St Louis. The following boats with their cargoes, were destroyed by the fire.

Edward Bates, Tuglone, Boreas No 3 Grey Eagle Steeph, Kit Carson Montauk, Fortune Acadia Mameluke, Prairie, State, Eudorus, St Peters Red Wing Alexander Hamilton Martha, Eliza Stewart Mandan Gen Brooke, Frolick, also a number of barks and wood boats. The heat from the burning boats fired the stores along the levee—commencing at Lewis street, in the heart of the business part of the city and extending three quarters of a mile down the levee and back to Second street. Nearly every building within these boundaries is in ruins. Besides four printing offices and their materials, six banking houses, &c the most extensive Business houses in the city were situated in the burnt district and they had a large amount of stock on hand, very little of which was saved.

The number of buildings burnt is 300. Loss estimated a $5 000 000. Several lives were lost.

Fire at Milwaukee.

A despatch from Milwaukee states that a fire occurred there on the 17th (Thursday) which destroyed $60 000 worth of property, including the printing office of the Sentinel and Gazette. Supposed to have been the work of an incendiary.

The Steamboat Empire.

The details of the sinking of the boat are heart rending. There were 25 persons on board. The following are known to have been lost —

Mrs Noble, of Essex County

Two children of George Buckland

Infant child of Mrs Lafayette Smith, of New York city

Two boys of Mrs Hays of Troy

Twelve bodies had been recovered from the wreck.

Fire Engines.

HUNNEMAN & CO have for sale at their Factory Roxbury 9 second hand FIRE ENGINES, of various well known makers with copper and wooden tubs with and without suction parts, which can be examined at any time at the Factory. Prices varying from $75 to $475. A good opportunity is presented to those who wish to purchase Fire Engines for a *little money* as they are offered low to get them out of our way. They may be had for a short time on trial as we do not wish the purchasers to run any risk as to their goodness. Reference may be had in the cities and towns where they are best known.

For further information apply at No 20 Union Street Boston or at our Fire Engine Factory Roxbury, Mass. HUNNEMAN & CO

D. WHITNEY, M. D.,
BOTANIC PHYSICIAN & SURGEON.
Office and Residence, 52 Main-st,
(OPPOSITE THE HATCH HOUSE)
BANGOR,

BEGS leave to return thanks to his numerous friends and patrons of very liberal patronage heretofore bestowed and hopes to merit and receive a continuance of the same
For the information of those who may not be acquainted with him he would say that he practices Medicine upon
ECLECTIC PRINCIPLES
and makes use of no remedies but what act in perfect harmony with the sanitary laws of life that his object in exhibiting a remedy is to sustain and not destroy the vital energies
Although he chooses to confine himself principally to the treatment of
Fevers and other Acute Diseases,
yet his former unparalleled success in curing *old chronic cases* of every description cases which resist the ordinary treatment of every system induces him to endeavor to do all in his power to alleviate suffering humanity
The result of his extraordinary success is in part owing to his

ABILITY TO DETECT

the actual *seat* of the malady For there is not one Physician in ten at the present day that REALLY understands the nature of their patient s disease and how can they expect to cure them If perchance they do comprehend it in some measure they too often administer such deleterious and life destroying remedies that their patients are never able to recover from the ills effects and much more the disease He would not boast of his superior skill nor pretend to cure diseases where organic life has become extinct yet upwards of twenty who were one year ago afflicted with that flattering too often *fatal* disease

The Consumption,

have been restored to health and are now living witnesses to the salutary effect of his medicine who were at this time pronounced *incurable* by their physicians of the *Old School* and among them were some of the most scientific in New England Does not a Physician s success in practice go further to convince the public of his real worth than all the advertisements or array of diplomas in Christendom?
He would say to the afflicted of every description that such as may choose to put themselves under his care and follow his directions if a cure is not effected he will pay the reasonable bill of any other Physician that will effect a permanent cure provided their bill does not exceed one hundred dollars *What can be fairer? Is this humbug? Is this Quackery? If so is it the Faculty?*
Persons wishing examination and advice may obtain it without being flattered in relation to the true nature of their Diseases or with regard to its curability as he will undertake no cases unless he is satisfied that he can materially relieve or entirely cure them wishing no man s money without rendering him an equivalent
☞To this end he challenges one and all of his numerous patients to designate a single instance where he has not performed to the letter all that he promised at the outset ☜
☞Fees for examination and advice $1
Dr W wishes the public to understand that he is no travelling Doctor as those only are *obliged to be* who practice Quackery and humbuggery *(for mark it)* a truly skillful Physician will always command the most business where he is best known,
☞A certificate of recommendation may be seen at his office (relative to himself and medicines) signed by upwards of *fifty* individuals of the first respectability in the town where he resided and practiced medicine previous to his locating in Bangor Also, sufficient city reference given if required to satisfy the most incredulous
All calls from the city or country promptly attended to
☞Charges always reasonable

Dr. Townsend's

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper pleasanter and warranted superior to any sold It cures without vomiting purging sickening or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other [illegible] is while it eradicates disease it [illegible] the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known [illegible] it not only purifies the whole system and strengthens the person but it *creates new pure and rich blood* a power possessed by no other medicine And in this lies the grand secret of its wonderful success — It has performed within the last five years more than 100,000 cures of severe cases of disease at least 15 000 were considered incurable It has saved the lives of more than 5 000 children during the two past seasons

10 000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr Townsend s Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effects of medicine or indiscretion committed in youth or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system lassitude, want of ambition fainting sensations, premature decay and decline hastening toward that fatal disease Consumption, can be entirely restored by this pleasant remedy This Sarsaparilla is far superior to any

INVIGORATING CORDIAL

As it renews and invigorates the system gives activity to the limbs and strength to the muscular system in a most extraordinary degree

CONSUMPTION CURED

Cleanse and Strengthen Consumption can be cured Bronchitis Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma Spitting of Blood, Soreness in the Chest Hectic Flush Night Sweats, Difficult or profuse expectoration Pain in the Side, &c have been and can be cured

SPITTING BLOOD

New York April 28, 1847

Dr Townsend—I verily believe that your Sarsaparilla has been the means through Providence, of saving my life I have for several years had a bad cough It became worse and worse At last I raised large quantities of blood had night sweats and was greatly debilitated and reduced and did not expect to live — I have only used your Sarsaparilla a short time and there has a wonderful change been wrought in me I am now able to walk all over the city I raise no blood, and my cough has left me You can well imagine that I am thankful for these results

Your obedient servant

WM RUSSELL 65 Catharine st

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq one of the assistants in the Lunatic Asylum Blackwell s Island is the gentleman spoken of in the following letter

Blackwell s Island, Sept 14 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat sleep or walk I had the most distressing pains and my limbs were terribly swollen I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good I am so much better—indeed, I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully,

JAMES CUMMINGS

FITS! FITS FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham August 13 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age who has been several years afflicted with Fits we tried almost every thing for her, but without success, at last, although we could find no recommendation in your circulars for cases like hers, we thought as she was in very delicate health we would give her some of your Sarsaparilla and are very glad we did, for it not only restored her strength but she has had no return of the Fits to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours, respectfully

JOHN BUTLER, Jr

FEMALE MEDICINE.

Dr Townsend s Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness Prolapsus Uteri or Falling of the Womb Costiveness Piles Leucorrhœa or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude from taking it at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame which is the great cause of Barrenness — It will not be expected of us in cases of so delicate a nature to exhibit certificates of cures performed but we can assure the afflicted that hundreds of cases have been reported to us Thousands of cases where families have been without children after using a few bottles of this invaluable medicine have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

This Extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period *The turn of life* should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement as it prevents diseases attendant upon childbirth—in Costiveness Cramps, Swelling of the Feet Despondency Heartburn, Vomiting, Pain in the Back and Loins False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is, it is always safe and the most delicate use it most successfully very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which when nature is not thwarted by disease or powder or the skin inflamed by the alkalies used in soaps, beautifies its own production in the " human face divine," as well as in the garden of rich and delicately tinted and variegated flowers A free active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe This beauty is the offspring of nature—not of *powder* or *soap* If there is not a free and health circulation there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick cold, and impure, she is not beautiful If she be brown or yellow and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling

---

eyes of the blood Three persons cured in one house is unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine — They were afflicted very severely with bad sores; have taken only four bottles, it took them away, for which I feel myself under great obligation Yours respectfully

ISAAC W CRAIN 106 Wooster-st

OPINIONS OF PHYSICIANS.

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents have commenced making Sarsaparilla Extracts Elixirs, Bitters, Extracts of Yellow Dock &c They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided

THE ORIGINAL AND ONLY — GENUINE INDIAN MEDICINE.

It is not our wish to trifle with the health of the community We desire to be governed by a sacred regard to truth in whatever is here stated in relation to this extraordinary medicine, and it is this feeling of sincerity and good faith which prompts us again and again to call attention to it We believe that no article has ever been discovered that has conferred a greater amount of benefit on the community, and the more it is known the better it is appreciated

SAVE YOUR DOCTOR'S BILLS

Thousands of dollars of doctor s bills have been saved by the use of this medicine, and there is little doubt that if it were more generally resorted to than it is, sickness would in most cases be prevented

New York, April 17, 1848

This is to certify that I have used Wright s Indian Vegetable Pills in my family for more than four years and as a family medicine believe them the best in the world During that period I have had no occasion for a physician though my daughter and wife have been very low several times WILSON TREADWELL,

Rivington Street

NERVOUS DEBILITY—LOSS OF ENERGY

Wright's Indian Vegetable Pills speedily and permanently restore the declining powers of the human body This may at first be doubted but no fact is better established Those who use the *so'd stant* Sarsaparillas for this purpose, overlook in doing so, a medicine far less expensive and more effectual

Clymer Chautauque Co , N Y , Oct 5 1848

Dr Wm Wright—Sir—For the last three or four years I had been gradually running down and finally became so weak that I was unable to perform my usual labor I was advised to try your Indian Vegetable Pills, and I am gratified to state that by the use of three or four boxes I began to feel like myself again and am now thoroughly cured

From my own experience I can command your Pills to the afflicted with confidence that they will be found a medicine of great efficacy and value Yours, truly,

JOHN CLEAVELAND.

WELL SPOKEN OF BY ALL!

Angelica, Allegheny Co , N Y , Sept 25 1848

Dr Wright Philadelphia

Sir— * * * I AM AT LOSS TO EXPRESS WITH WORDS WHAT HAS BEEN SAID IN PRAISE OF YOUR INDIAN VEGETABLE PILLS All that I have sold to without exception speak very highly of them I have acted as your Agent here for the last two years, and have frequently used the Pills myself I can speak from experience on the subject and can cordially recommend them to my acquaintance and to the public in general Respectfully yours

ISRAEL N HOWE

Let it be remembered that Wright s Indian Vegetable Pills are prepared with special reference to the laws governing the human body Consequently they are always good always useful, always effective in driving out disease Every family should keep them on hand

Look out for Counterfeits!

Some are coated with sugar others are made so resemble in outer appearance the original article The safest course is to purchase from the agents only one or more of whom will be found in every town and county in the State

SARSAPARILLA, TOMATO and WILD CHERRY BITTERS have now become a standard medicine universally approved by physicians as a safe, speedy and effectual remedy for *Scrofulous, Mercurial and Cutaneous Diseases,* Jaundice, Indigestion, Dyspepsia Bilious Disorders, Liver Complaints, Costiveness Weak and Sore Stomach, Ulcers and Running Sores, Swelling of the limbs, Pain in the Bones, Tumors in the Throat, Rheumatic Affections, Salt Rheum, Erysipelas bad Humors Eruptions on the face or body, Cancerous Sores King s Evil, *Chronic Catarrh*, Languor, Debility, Headache Dizziness, Sallow Complexion, and all those disorders which arise from the abuse of Mercury, or from an impure taint in the blood, no matter how acquired.

The extract here presented is prepared after directions given by the celebrated Dr Warren, whose name it bears, and will be found super or to any preparation of the kind now in use It is highly concentrated, entirely vegetable, and very finely flavored to the taste The change which it produces [illegible]

CAUTION EXTRA.

A man by the name of *CLAPP* has engaged with a young man of the name of S P Townsend and uses his name to put up a Sarsaparilla which they call Dr Townsend's Sarsaparilla, denominating it *GENUINE* Original, etc This Townsend is no doctor, and never was but was formerly a worker on railroads, canals and the like Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not This is to caution the public not to be deceived, and purchase none but the *GENUINE ORIGINAL OLD* Dr Jacob Townsend's Sarsaparilla, having on it the Old Dr's. likeness, his family coat of arms, and his signature across the coat of arms

Principal Office, 102 Nassau st New York City

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL TOWNSEND SARSAPARILLA* Being poor he was compelled to limit its manufacture by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth and known its value It had reached the ears of many nevertheless, as those persons who had been healed of sore diseases, and saved from death proclaimed its excellence and wonderful

HEALING POWER.

Knowing *many years ago* that he had by his skill science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This time has come the means are supplied this

GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration

Unlike young S P Townsend s it improves with age and never changes but for the better because it is prepared *on scientific principles* by a *scientific man* The highest knowledge of Chemistry and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr s Sarsaparilla The Sarsaparilla root, it is well known to medical men contains many medicinal properties and some properties which are inert or useless and others, which if retained in preparing it for use produce *fermentation* and *acid*, which is injurious to the system Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation if they are not preserved by a *scientific process* known only to those experienced in its manufacture Moreover these *volatile principles* which fly off in vapor or as an exhalation under heat, are the very *essential medical properties of the root* which give to it all its value

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from anything else they can then strain this insipid or vapid liquid, sweeten with sour molasses and then call it SARSAPARILLA EXTRACT or SYRUP But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed every thing capable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men women and children We find it doing wonders in the cure of *CONSUMPTION DYSPEPSIA* and *LIVER COMPLAINT* and in *RHEUMATISM SCROFULA PILES COSTIVENESS* all *CUTANEOUS ERUPTIONS PIMPLES BLOTCHES*, and all affections arising from

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from *Indigestion* from *Acidity of the Stomach* from unequal circulation determination of blood to the head palpitation of the heart, cold feet and hands cold chills and hot flashes over the body It has not its equal in *Colds* and *Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs, throat and every other part

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS

It works wonders in cases of *Fluor Albus* or *Whites, Falling of the Womb Obstructed Suppressed* or *Painful Menses Irregularity* of the menstrual periods and the like and is as effectual in curing all forms of *Kidney Disease*

By removing obstructions and regulating the general system it gives tone and strength to the whole body and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies as *Spinal irritation Neuralgia St Vitus Dance Swooning Epileptic Fits Convulsions* &c

It cleanses the blood excites the liver to healthy action tones the stomach and gives good digestion, relieves the bowels of torpor and constipation allays inflammation purifies the skin equalizes the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness removes all obstructions and invigorates the entire nervous system Is not this then

The medicine you pre eminently need!

But can any of these things be said of S P Townsend s inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S

because of one GRAND FACT that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS.

while the other DOES *souring fermenting* and *blowing the bottles* containing it into fragments the sour acid liquid exploding and damaging other goods Must not this horrible compound be poisonous to the system?— *What! put acid into a system already diseased with acid!* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? flatulence heartburn palpitation of the heart, liver complaint diarrhœa dysentery colic and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin Scald Head Salt Rheum Erysipelas White Swellings Fever Sores and all ulcerations internal and external? It is nothing under heaven but an acid substance which sours and thus spoils all the fluids of the body more or less What causes Rheumatism but a sour or acid fluid, which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood of deranged circulations and nearly all the ailments which afflict human nature

Now is it not horrible to make and sell and *infinitely worse* to use this

SOURING FERMENTING, ACID "COMPOUND" OF S P TOWNSEND,

and yet he would fain have it understood that Old Dr Jacob Townsend s *Genuine Original Sarsaparilla*, is an IMITATION of his inferior preparation

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend s article! and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S P Townsend s FERMENTING COMPOUND

We wish it understood because it is the *absolute truth* that S P Townsend s article and Old Dr Jacob Townsend's Sarsaparilla are *heaven-wide apart, and infinitely dissimilar*, that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor, and never was is no chemist no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants the best manner of securing and concentrating their healing virtues also an extensive knowledge of the various dis-

Principal Office,—No. 30, India Street, Boston.

Please read the following certificate of a highly respectable and aged gentleman

RINDGE, N H April 1, 1848

To all whom it may concern

I the undersigned do hereby certify, that I was acquainted with the late Dr Stephen Jewett from my boyhood up to the time of his death and having been his nearest neighbor can testify to his medical skill and knowledge of Botany with hundreds of others now living, and that in the year 1814 I was afflicted with jaundice palpitation of the heart pain in the side and general debility, so as to be *unable to attend to any business* and being a neighbor of the late Dr Stephen Jewett I had recourse to his far famed *Bitters* and *Plaster* and by their use was permanently cured, Since the above named date, I have used Dr Jewett's medicines with equally good effect as prepared by Stephen Jewett son of the late Dr Stephen Jewett of Rindge N H and I cheerfully recommend them to the public as safe and invaluable medicines — and being composed entirely of vegetables I think them far better suited to the diseases of our climate than medicines composed of minerals or foreign nostrums Try them, and judge from facts and experience I consider Dr Stephen Jewett s Strengthening Plaster far superior to any external application for the purposes for which it is recommended, of any that I have ever known

DR STEPHEN JEWETT'S

Health Restoring Bitters.

These Bitters, acting as they do upon the Stomach Liver and Bowels removing all the morbid secretions thereby purifying the blood and invigorating the digestive organs not only cure diseases that already exist, but they also fortify the system against all attacks of disease It is a common remark among those who have used Dr Jewett's Bitters that they have lost the fear of being sick The remark is strictly true, for while the stomach and bowels are kept in good condition and the blood pure all the great predisposing causes are removed and the whole system is fortified against those morbific influences which under less favorable circumstances would have engendered perhaps fatal disease

In order that the public may know that they are offered a truly excellent article we append the following, certificate which may be seen with numerous others, in their original, by calling on the proprietor

BOSTON May 15 1848

To all whom it may concern —This may certify that I have been for years troubled with a scrofulous humor which has been very troublesome, and was fast undermining my health and had severe pains in the back loss of appetite, langour and general debility

A short time since I commenced taking Dr Jewett s Health Restoring Bitters, and in a very short time my humors and pains left me my appetite improved and my health has not been so good for years all of which I attribute to Dr Jewett s Health Restoring Bitters

DR STEPHEN JEWETT'S

Pulmonary Elixer.

Nearly one third of all the deaths that occur in New England are caused, either directly or indirectly by diseases of the Lung and Chest Why is this great sacrifice of human life? How happens it that the brightest intellects of the highest promise the hope and support of declining years are stricken down in early life? Why is it that so many families have been made desolate by that fell destroyer Consumption? And how happens it that so many interesting and lovely children are cut down every year by those dread diseases, the Quinsy and Croup? Is it because these diseases are incurable? Physicians will tell you these diseases can be cured,—if taken in season

It is true these diseases can be cured with almost absolute certainty—if taken in season Every body should be aware of this fact and provide themselves with Dr Jewett s Pulmonary Elixer

The following certificate among numerous others which have been received are appended for the benefit of those who desire to see certificates

WINCHENDON Mass March 10 1848

Stephen Jewett—Dear Sir,—I feel it a duty to you and to the public generally to inform you all who may have been afflicted as I have that I have been entirely cured of a severe and long continued cough, by one bottle of your Pulmonary Elixer — For months I have been a great sufferer I had pain in my left side, sore throat constant cough and raised a good deal of bad looking matter My strength was gone and my flesh was wasting away I took many things without benefit and was steadily getting worse till I procured your Pulmonary Elixer which has cured me, and I cheerfully recommend it to all who are troubled with coughs

Yours truly

If time permitted I could fill a sheet of paper with the details of particulars but I can now only furnish this brief abstract My Dyspepsia has never returned the Rheumatism once in a while visits me but not severely and is easily arrested and is manifestly being driven from its hold upon my system and my Bronchial affection is *entirely* cured Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections They have tried them WITH HAPPY RESULTS I BELIEVE IN EVERY CASE
